**FINANCIAL.**

The past week developed nothing new in  
the money market of the country. There  
was no urgent demand for funds from any  
quarter, and rates remained stable, except  
as a result of the heavy foreign trade. If anything,  
the feeling was a trifle easier, but rates  
were held steady under a further reduc-  
tion in the amount of money available for  
loaning. In new only \$1,450,000, and a decrease  
of \$1,000,000 in deposits, yet it is said the  
amount of money available for loaning  
has tended to prevent any increase in  
Boston money as reported early, and dull in  
Philadelphia. Baltimore also reports a  
moderate demand for funds in the market.  
At Cincinnati money is quiet. In  
Columbus a firm situation is found in  
the market, and rates were held steady  
without giving employment to much  
money. Rates, however, remain unchanged.  
St. Louis reports a very modest demand for  
loaning, and the market is quiet. In  
City, the situation has improved a little,  
though the offerings of new paper are not  
large, and continue to improve, so far as  
they go for the time being. There  
has been a noticeable increase in the  
supply of mercantile paper, drawn out for the  
first time in a long while, and the  
much of it is for small amounts and short  
dates. Rates remain steady at 1 per cent.  
But little currency comes to the  
country, and the market is quiet, holding up well.  
Bank clearings for the week ending Tuesday, April 2, same time  
last year, show an increase of \$900,000,  
a gain of 12 per cent.

**Local Bank Stock quotations.**
